- Lunch provided Tuesday through Thursday

How To Register

Visit www.disa.mil/conferences/2011 to register and for conference information and updates.

*Army LTG Carroll F. Pollett
DISA Director*

Speakers

The DISA Customer Partnership Conference will feature distinguished guest speakers from military, government, and industry. Our opening keynote speaker will be Army LTG Carroll F. Pollett, DISA director. Other confirmed speakers include the Honorable William J. Lynn, Deputy Secretary of Defense; Teri Takai, the Defense Department CIO; Air Force Gen Duncan McNabb, commander of U.S. Transportation Command; and John Chambers, CEO of Cisco Systems, Inc.

Exhibit Hall

AFCEA International will be conducting a technology showcase concurrent with the DISA Customer Partnership Conference. With more than 200 industry exhibitors and 50 DISA exhibitors, companies and programs will feature their latest IT products and services.

Tracks and Sessions

The educational tracks and sessions discuss DISA's programs, applications, and new initiatives and provide participants with the opportunity to gain more knowledge and a better understanding of the full spectrum of DISA's programs, services, and solutions.

Tracks and sessions cover a wide range of DISA and DoD related topics to include:

- Multi-National Information Sharing (MNIS)
- Non-Classified Information Sharing
- Global Command and Control System - Joint (GCCS-J)
- Global Combat Support System - Joint (GCSS-J)
- Advanced Concept Technology Development (ACTD)
- Coalition Warrior Interoperability Demonstration (CWID)
- International Security Assistance Force (ISAF)
- Defense Information Assurance Certification and Accreditation Process (DIACAP)
- GIG Communication
- GIG Computing
- Enterprise Services
- IA Compliance
- Engineering
- Spectrum
- Testing
- Contracting

Who Should Attend

DISA customers and IT professionals from the military services, combatant commands, DoD and federal agencies; industry representatives; and other thought leaders and subject experts.

The conference enables you to interact with DISA senior leaders and other participants to hear about and discuss the successes, challenges, and way ahead of many critical programs and initiatives in the areas of enterprise infrastructure; command and control and information sharing; and operating and assuring the reliability, availability, diversity, capacity, and security of the enterprise infrastructure.

The objectives of the DISA Customer & Industry Forum are to provide a forum to exchange information and ideas that lead to improving the capabilities and services DISA provides for the DoD community as well as an opportunity to hear directly from our senior leaders about the directions of the agency in the near future. Your participation is invaluable to facilitating this endeavor for our mutual benefit.
