Trial Offer! Beta Testers Wanted

DHS is seeking IT Security subject matter experts to help test the fully operational Federal Virtual Training Environment (FedVTE). FedVTE will provide government-wide access to online and on-demand role-based IT security training and hands-on labs including HBSS training to the broader .gov and .mil audiences.

This is your chance to preview and comment on the FedVTE. Help us put on the finishing touches! Trial accounts will be distributed to a limited number of volunteers. Contact FedVTE@dhs.gov to learn more.
