c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

The DISA JC2 Local GCN hosts JCRM, JFW, PFG, and NSLDDS/Joint COP systems. It provides leaders with the knowledge and data required to make effective operational plans supporting deployment operations. It will bring to bear the provisioning of systems for efficient manipulation of data, conflict resolution and the over-all operational picture. This project is sponsored through the DISA JC2. Definitive capability will be provided to in-place and deployed warfighters throughout the various command theaters. The JC2-GCN is a zone A and B testing environment. Management of the DISA JC2 Local GCN will be provided by the DISA Services Development (SD) SD4 Branch. All processes conducted via the GCN will be accomplished in the Ft. Meade, L3C15 lab.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The EDIPI is read from CAC, ALT Token and CNSSI Token for accessing the testing environment. Information is not stored but is only used for access for Identification and Authentication.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

There is no data being collected as PII is only used as a method of identification and for authentication purposes.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Individuals can object to the use of the PII in this manner by choosing not to access the JC2 Local GCN. There is no data being collected as PII is only used as a method of identification and for authentication purposes.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)
