PRIVACY IMPACT ASSESSMENT (PIA)

For the

System Access Workflow and Tracking (SAWT)
Defense Information Systems Agency (DISA)

SECTION 1: IS A PIA REQUIRED?

a. Will this Department of Defense (DoD) information system or electronic collection of information (referred to as an "electronic collection" for the purpose of this form) collect, maintain, use, and/or disseminate PII about members of the public, Federal personnel, contractors or foreign nationals employed at U.S. military facilities internationally? Choose one option from the choices below. (Choose (3) for foreign nationals).

☐ (1) Yes, from members of the general public.

☒ (2) Yes, from Federal personnel* and/or Federal contractors.

☐ (3) Yes, from both members of the general public and Federal personnel and/or Federal contractors.

☐ (4) No

* "Federal personnel" are referred to in the DoD IT Portfolio Repository (DITPR) as "Federal employees."

b. If "No," ensure that DITPR or the authoritative database that updates DITPR is annotated for the reason(s) why a PIA is not required. If the DoD information system or electronic collection is not in DITPR, ensure that the reason(s) are recorded in appropriate documentation.

c. If "Yes," then a PIA is required. Proceed to Section 2.

SECTION 2: PIA SUMMARY INFORMATION

a. Why is this PIA being created or updated? Choose one:

☐	**New DoD Information System**	☒	**New Electronic Collection**
☐	**Existing DoD Information System**	☐	**Existing Electronic Collection**
☐	**Significantly Modified DoD Information System**		

b. Is this DoD information system registered in the DITPR or the DoD Secret Internet Protocol Router Network (SIPRNET) IT Registry?

☒	**Yes, DITPR**	Enter DITPR System Identification Number	17656
☐	**Yes, SIPRNET**	Enter SIPRNET Identification Number	
☐	**No**		

c. Does this DoD information system have an IT investment Unique Project Identifier (UPI), required by section 53 of Office of Management and Budget (OMB) Circular A-11?

☐ **Yes** ☒ **No**

If "Yes," enter UPI

If unsure, consult the Component IT Budget Point of Contact to obtain the UPI.

d. Does this DoD information system or electronic collection require a Privacy Act System of Records Notice (SORN)?

A Privacy Act SORN is required if the information system or electronic collection contains information about U.S. citizens or lawful permanent U.S. residents that is retrieved by name or other unique identifier. PIA and Privacy Act SORN information should be consistent.

☒ **Yes** ☐ **No**

If "Yes," enter Privacy Act SORN Identifier K890.14 DoD

DoD Component-assigned designator, not the Federal Register number.
Consult the Component Privacy Office for additional information or
access DoD Privacy Act SORNs at: http://www.defenselink.mil/privacy/notices/

or

Date of submission for approval to Defense Privacy Office
Consult the Component Privacy Office for this date.

e. Does this DoD information system or electronic collection have an OMB Control Number?
Contact the Component Information Management Control Officer or DoD Clearance Officer for this information.

This number indicates OMB approval to collect data from 10 or more members of the public in a 12-month period regardless of form or format.

☐ **Yes**

Enter OMB Control Number

Enter Expiration Date

☒ **No**

f. Authority to collect information. A Federal law, Executive Order of the President (EO), or DoD requirement must authorize the collection and maintenance of a system of records.

(1) If this system has a Privacy Act SORN, the authorities in this PIA and the existing Privacy Act SORN should be the same.

(2) Cite the authority for this DoD information system or electronic collection to collect, use, maintain and/or disseminate PII. (If multiple authorities are cited, provide all that apply.)

(a) Whenever possible, cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.

(b) If a specific statute or EO does not exist, determine if an indirect statutory authority can be cited. An indirect authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.

(c) DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component should be identified.

The following authority allows System Access Workflow and Tracking (SAWT) to collect the following data:

- Executive Order 10450, Security requirements for Government employment
- Public Law 99-474, the Computer Fraud and Abuse Act
- DoD Enterprise User Data Management Plan for Persons and Personas

g. Summary of DoD information system or electronic collection. Answers to these questions should be consistent with security guidelines for release of information to the public.

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

The purpose of this electronic collect is to automate the System Authorization Access Request (SAAR) (formerly known as the DD2875 form) process by accelerating and streamlining the existing process and incorporate the following capabilities:
• Pre-populate user information
• CAC digital signature
• Workflow notifications
• Multi-approval and routing
• Digital updates to a SAAR status dashboard
• Integration with SharePoint for SAAR request archive
The personal information that will be collected about individuals will be their name, official email, office symbol, office location, job title, office telephone, office mailing address, citizenship, DoD designation, security clearance, and digital signatures.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

The privacy risks associated with the PII collect are very low. The SAWT System enforces the concept of least privilege. This means the system functions so each user will have access to only the information the user is entitled to and privileged users will only have non-privileged accounts for non-privileged use. All transmission of sensitive data between the client and the SAWT servers is transmitted via a secure communication channel with a minimum of Network Security Services (NSS) 128-bit SSL v3.1/TLS encryption, which is FIPS 140-2 compliant. All transmission of sensitive data between the SAWT System running via the web server and back-end databases will also be encrypted. SAWT is using CAC cards for hardware security tokens, to log into the application.

h. With whom will the PII be shared through data exchange, both within your DoD Component and outside your Component (e.g., other DoD Components, Federal Agencies)? Indicate all that apply.

☒ **Within the DoD Component.**

Specify. This electronic collection will be only used within DISA.

☐ **Other DoD Components.**

Specify.

☐ **Other Federal Agencies.**

Specify.

☐ **State and Local Agencies.**

Specify.

☐ **Contractor** (Enter name and describe the language in the contract that safeguards PII.)

Specify.

☐ **Other** (e.g., commercial providers, colleges).

Specify.

i. Do individuals have the opportunity to object to the collection of their PII?

☒ **Yes** ☐ **No**

(1) If "Yes," describe method by which individuals can object to the collection of PII.

Before accessing the SAWT application, users will see a "privacy act statement" that mirrors the statement on the DD Form 2875, Aug 2009.

(2) If "No," state the reason why individuals cannot object.

j. Do individuals have the opportunity to consent to the specific uses of their PII?

☐ **Yes** ☒ **No**

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

The PII information collected is an individuals security clearance and it is provided by the the security manager. Access to the Joint Personnel Adjudication System (JPAS) that is used to access security clearance information can only be accessed by security managers appointed to manage clearances. Since, individuals do not have access to JPAS, verification of their security clearance must be done by the security manager; therefor, the opportunity to give or withhold their consent to releasing their security clearance information cannot be given. Requesting the security clearance information from the security manager ensures that the most accurate and up-to-date security clearance information on an individual is gained.

k. What information is provided to an individual when asked to provide PII data? Indicate all that apply.

☒	**Privacy Act Statement**	☐	**Privacy Advisory**
☐	**Other**	☐	**None**

Describe each applicable format.

The format will look exactly like the privacy act statement displayed on the form. Please see below:

PRIVACY ACT STATEMENT

AUTHORITY:
Executive Order 10450, and Public Law 99-474, the Computer Fraud and Abuse Act.

PRINCIPAL PURPOSE:
To record names, signatures, and other identifiers for the purpose of validating the trustworthiness of individuals requesting access to Department of Defense (DoD) systems and information. NOTE: Records may be maintained in both electronic and/or paper form.

ROUTINE USES:
None.

DISCLOSURE:
Disclosure of this information is voluntary; however, failure to provide the requested information may impede, delay or prevent further processing of this request.

NOTE:

Sections 1 and 2 above are to be posted to the Component's Web site. Posting of these Sections indicates that the PIA has been reviewed to ensure that appropriate safeguards are in place to protect privacy.

A Component may restrict the publication of Sections 1 and/or 2 if they contain information that would reveal sensitive information or raise security concerns.
