# DoD CYBER EXCHANGE

## The Premier Cyber Resource for the DOD

Formerly known as the IASE

**CYBER.mil**

The Department of Defense (DOD) Cyber Exchange is a complete redesign and rebranding of the IASE Portal. Going beyond *cybersecurity*, the DOD Cyber Exchange provides one-stop access to cyber information, policy, guidance and training for the DOD. The portal was developed with mobile and HTML5 compatibility, providing dynamic and adaptive content management and delivery. With search engine optimization, a host of new topic areas, and future plans to incorporate an integrated learning management system (LMS) and virtual training environment (VTE), the DOD Cyber Exchange aims to remain "the premier cyber resource" for sustaining a capable workforce.

## Cyber in Three Environments

**Public**  
[public.cyber.mil](http://public.cyber.mil)

- All internet users
- Limited, Public-Approved Content
- AWS Public Level 2 Cloud

**NIPR**  
[cyber.mil](http://cyber.mil)

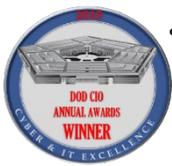

- CAC with DOD certificates
- More than 40 Content Areas
- AWS GovCloud Level 4

**SIPR**  
[cyber.smil.mil](http://cyber.smil.mil)

- SIPR Token Required
- More than 40 Content Areas
- milCloud 1.0
- Mirrors NIPR without LMS & VTE

## Building on Success:

- Named **2015** DOD CIO Award for Cyber and IT Excellence
- Listed in **top 2%** of most visited DOD sites\*
- Hosts mandatory annual training for **5,100,000** DOD personnel

\*according to [Google Analytics Program](#)

- Hosted entirely in the cloud
- Improved user interface & user experience
- Optimized search to quickly find content
- Completely FREE to host content
- Upcoming: Integrated Learning Management System with a Virtual Training Environment
