

DISA

DEFENSE INFORMATION SYSTEMS AGENCY
The IT Combat Support Agency

DISA's new cloud-based storage solution enables secure access to data anywhere, anytime

A secure, simple, and smart turn-key cloud storage solution that allows you to mobilize, protect, sync and share customer data from anywhere on the DODIN at any time to improve work productivity. milDrive allows organizations to advance their digital workplace experience in a way that incorporates existing content repositories, delivers cutting edge file sharing, collaboration and data protection capabilities, and simplify searches.

Secure

Retain visibility and control of your data safeguard file data (encryption/data protection) PKI authentication

Simple

Anytime, Anywhere, Any DoD Device
User-friendly web portal.
Seamless integration with existing file structure

Smart

Modernize file services
Store data efficiently

Flexible

Deliver a cloud based storage service
Customizable storage needs

Features

Mobility: Customers can be productive anytime, anywhere, on any DoD device.

Enterprise sync and share: Access information, including NAS shares or content management systems, anywhere on the DODIN

Cloud connected storage: No more full hard drives with cloud integrated storage

Collaboration: Share files and folders among coworkers or external collaborators.

Device management: Self-service management of all customer devices

Efficient: Offline access to data and optimizes network bandwidth usage

ROI: Reduces IT resources & admin costs eliminating the need for on-premise storage

File Synch & Share Capability	CAC Authentication	Storage Capacity	Cost	Network	Security
milDrive	Yes	20GB 1TB	All inclusive	DODIN NIPRNet	<ul style="list-style-type: none"> RMF Authorization to Operate on DODIN Data is stored on DoD-owned/maintained appliances
Industry Average	No	Up to 1TB	A La Carte	Public Internet	<ul style="list-style-type: none"> Requires AO Approval to use Identity management costs extra

GETTING STARTED
