

## Forecast to Industry 2020

The information provided in today's briefings is for general information purposes only. It does not constitute a commitment on behalf of the United States Government to provide any of the capabilities, systems, or equipment presented and in no way obligates the United States Government to enter into any future agreements with regard to the same. The information presented may not be disseminated without the express consent of the United States Government.

# Forecast to Industry 2020

## Public Key Infrastructure (PKI) Program Office

**Kim Harper**  
**Chief & Deputy DoD**  
**3 December 2020**

# DISA, Mission Partners and Industry Joint Efforts Support the Warfighter

- **Mission**

- Provide strong authentication support through digital signatures and encryption capabilities via certificates to people and non-person entities
- Serve as the Deputy Program Manager Program office and the operations and sustainment arm for the DoD Public Key Infrastructure (PKI) Program
- Support the integration of DoD-approved external PKIs and maintain cross-certification relationships with the Federal Bridge

- **Program Objectives**

- Create and manage the development of new technical capabilities and infrastructures for next generation PKI technologies
- Operations and sustainment of all PKI systems and networks
- PKI system security compliance, Certification and Accreditation (C&A), code reviews, Independent Verification and Validation (IV&V) site visits, and system tests
- Drive for automated issuance and revocation of digital certificates
- Provides Tier I, II, and III support to the PKI test and operational communities at Joint Interoperability Testing Command (JITC), O&M, and the computing centers
- Development and testing for the global directory service program
- Development, testing, and outreach for the Public Key Enablement (PKE) program
- Manages PKE service desk, external certificate authorities, and customer-facing support pages on the DOD Cyber Exchange

- **Near Term Goals (FY21-23)**

- Transition Non Person Entity (NPE) and Token Management System (TMS) programs from NSA
- Transition infrastructure to DISA Capacity Services
- Implement and Manage a Publicly Trusted Certificate Authority solution with automated issuance/renewal capabilities
- Support credentialing requirements for enterprise Commercial Solutions for Classified (CSfC)

# Acquisition Opportunities FY21 & Beyond
