PEO Cyber

2025 Forecast to Industry

Dr. Brian Hermann

Director, PEO Cyber

Acquisition Opportunities

FY26 & Beyond

PEO Cyber

Project Title & Description	Program Office	Projected Solicitation/Award Date
PKI Public Key and Enablement (PKE) Support sustainment of existing & emerging PKI infrastructure. Develops custom enterprise solutions and ensures commercial products interoperate with DOD PKI. Modernize infrastructure for increased productivity, improved Information Assurance posture and migration to new approved infrastructure. Provide engineering support for consumers of DOD Public Key Infrastructure as well as Algorithm Evolution (AE), Post Quantum Cryptography (PQC), Zero Trust, and cloud capability efforts. Aligned to ABO-A3, PKI is foundational to Zero Trust and Identity, Credential, and Access Management (ICAM) efforts. Aligned to Commercial National Security Algorithm Suite 2.0 (CNSA 2.0), National Security Memorandums (NSMs) 8 and 10 as well as CNSSP 11 and CNSSP 15.	ACQ – Security Enablers	**Acquisition:** Single Award **Competition:** Full and Open **Solicitation:** 3Q FY26 **Award:** 1Q FY27
Identity, Credentialling, and Access Management (ICAM) Production Follow-on Provide Program Management, Customer Engagement, Cyber Security, Tier III Engineering, Operations, and Maintenance for the Enterprise ICAM solution.	ACQ – Security Enablers	**Acquisition:** Single Award **Competition:** TBD **Solicitation:** 3Q FY26 **Award:** 1Q FY27

PEO Cyber

Project Title & Description	Program Office	Projected Solicitation/Award Date
Cloud Based Internet Isolation Service (CBII) Mitigate the DoD Information Network (DoDIN) threats and free up bandwidth capacity by redirecting internet browsing from the end user's desktop into a remote cloud-based server.	ACQ – Perimeter Defense	**Acquisition:** Single Award **Competition:** Full and Open with Brand Name software requirement **Solicitation:** 1Q FY26 **Award:** 3Q FY26
Domain Name System (DNS) Hardening – Engineering and Program Management Support Network engineering support for designing, testing, evaluating and implementing commercial DSN server applications (software and/or hardware) with the existing and expanding DoD architecture and providing recommendations for enhancing the infrastructure to combat evolving threats using new commercial applications.	ACQ – Perimeter Defense	**Acquisition:** Single Award **Competition:** TBD **Solicitation:** 4Q FY28 **Award:** 2Q FY29

PEO Cyber

Project Title & Description	Program Office	Projected Solicitation/Award Date
Continuous Monitoring & Risk Scoring (CMRS) Modernization of a current suite of Government off-the-shelf (GOTS) based software solutions. CMRS integrates data from DoD Enterprise Cyber Security applications & tools to provide near real time risk management visualization, automated configuration management analysis, and continuous monitoring capabilities that enable net defense. The functionality of CMRS is to assess & measure the risk state of DoD IT systems in accordance with (IAW) Enterprise security controls.	ACQ – Perimeter Defense	**Acquisition:** Single Award **Competition:** Small Business Set-Aside **Solicitation:** 1Q FY26 **Award:** 4Q FY27
Secure Configuration Management (SCM) Development & Operations SCM enables Information Security Continuous Monitoring (ISCM) as part of the Dept of Defense (DoD) Continuous Monitoring Strategy. Supporting the initial data sets of assets, system configurations, & vulnerabilities (Federal Information Security Management reporting requirements).	ACQ – Perimeter Defense	**Acquisition:** Single Award **Competition:** Small Business Set-Aside **Solicitation:** 3Q FY26 **Award:** 2Q FY27

DISA: The premier IT and telecommunications provider for the Warfighter.
